WOOD GRAINS, EMBOSSED
AND SMOOTH COLOURS

Australian Laminate Colour Range

Valid from January 2023

Locally stocked range for immediate availability

Kömmerling in Australia currently offer 4 laminated profiles which are stocked at its Melbourne warehouse for immediate availability and local processing through its national network of window fabricators.

AUSTRALIAN LAMINATED COLOURS

Rigorously tested for durability, resistance to UV, peeling and cracking, all the laminate finishes offered as part of the Australian range of coloured laminated profiles are ideally suited to offer a high quality, contemporary and timeless appearance.

With plain colours and wood grains offered in smooth or embossed surface finishes across a wide variety of colours and realistic timber contours, there is both a look and feel for every application and every taste.

With the ability to have wood grain or plain colours on the outside and white on the inside.....or foil laminate on both sides.....the choice really is all yours !

GOLDEN OAK
9 2178701 - 1 16701

A timeless, warm colour which blends classic orange and brown hues within a high quality embossed finish to bring a traditional timber feel to any home.

ANTHRACITE GREY
02 20 71 000001 - 808300 || similar RAL 7016

A luxurious, deep, dark grey, which, with its subtle lustre and smooth surface, is as pure and natural as it is bold and contemporary.

SIGNAL GREY
02 20 71 000009 - 808300 || similar RAL 7004

A light to mid grey whose 'cool' smooth appearance remains remarkably consistent regardless of the lighting conditions. Complements light and dark finishes equally well as well as hinting at a faint metallic finish without providing the associated level of reflectivity.

CEYLON
02 12 81 000061 - 808302

A deep black/brown shade which combines the best features of both colours. Showcasing and effortlessly blending the warmth of brown with the boldness of black, Ceylon passively reveals the subtleties of its colour combination as the natural light continually changes throughout the day.

THE CHOICE IS YOURS

Wood grains, embossed and smooth colours

In the complete Australian foiling colour range you have the choice between woodgrain embossed or smooth colours on the outside – and white on the inside – or foil laminate on both sides.
